

## M20-8G-PoE

## 9 Port Cloud Managed PoE Router

## M20-8G-PoE

## 9 Port Cloud Managed PoE Router

### **Products Description**

M20-8G-PoE integrates router, PoE switch, and access controller altogether. Dedicated 8× PoE+ Ports for PoE-supported devices such as access points, IP cameras, and IP phones, lowering infrastructure costs for small businesses.

M20-8G-PoE supports pass-through traffic and multiple VPN protocols, including IPSec, PPTP, and L2TP . Intelligent load balancing and link redundancy between multiple WAN ports.

### Key Feature

- Integrates router, PoE switch, and controller altogether.
- Dual-Core CPU provides 1Gbps Forwarding performance
- Up to 4× WAN Ethernet Ports, Support load balancing
- 8×802.3at/af-compliant PoE+ ports yield a total power supply of 95W\*.
- Supports IPsec VPN, and L2TP/PPTP VPN connections.

### **Product Features**

### Router Mode and AC Mode

It supports Router Mode and AC Mode. It can simultaneously manage 128 APs in router mode and 256 APs in AC Mode. It can automatically discover and manage IP-COM APs in the network, and perform unified configuration and management of APs.

# Efficient firewall to ensure internal and external network security

Support attack defense function, effectively resisting various common DoS attacks, DDoS attacks, ARP attacks, flooding attacks and scanning attacks.

Support IP and MAC address binding, effectively preventing ARP spoofing.

Support MAC address-based filtering to block unauthorized hosts from accessing.

Support URL filtering to prevent users from accessing risky domain names, and reduce network risks.

#### 95W PoE Budget

Support 8× PoE+ Ports for PoE-supported devices such as access points, IP cameras, and IP phones.

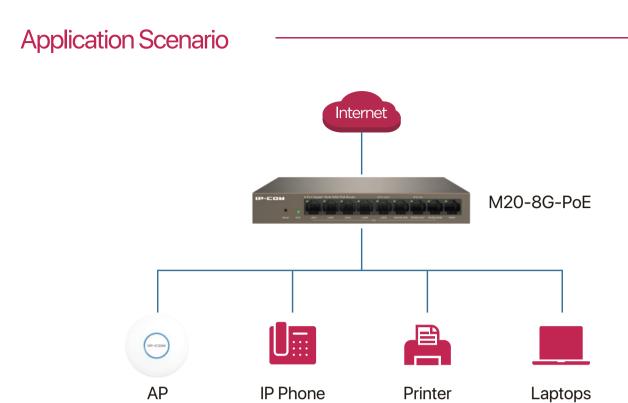

### Multiple WAN ports with multiple broadband access

supports up to 4 WAN ports. It can realize bandwidth stacking with 4 broadband lines, and the stacking efficiency can reach 98%. In addition, it supports intelligent routing, automatic traffic balancing and custom traffic balancing to fully utilize bandwidth resources.

### **Cloud Managed**

Supports ProFi Cloud, Remote monitoring and maintenance.

### **Product Specifications**

Product Informations	
Basic Information	M20-8G-PoE
Installation	Desktop, rack installation
Dimensions (L*W*H)	177.5*104*26
Application Scenario	Enterprise Office
Operation mode	Router Mode, AC Mode
Performance Parameters	
Max. Client Capacity	150
Recommended Client Capacity	100
Recommended broadband	1000Mbps
Max. New Sessions	4000
Max. Concurrent Sessions	49000
NAT (Static IP)	940Mbps/930Mbps
NAT(DHCP)	941Mbps/932Mbps
NAT(PPPoE)	914Mbps/924Mbps
AP Management	Router mode: 128; AC mode: 256
VLAN	4
Hardware Parameters
